PROFESSIONAL SUMMARY

Software Engineer with experience developing full-stack web applications, backend REST APIs, and data-processing workflows using Java, Spring Boot, React, Python, and SQL. Hands-on experience implementing authentication and role-based authorization, integrating databases and third-party APIs, and supporting application deployment and CI/CD workflows. Experienced in building and deploying e-commerce applications and automating large-scale digital asset processing.

TECHNICAL SKILLS & CERTIFICATION

Programming Languages: Java, Python, JavaScript, TypeScript, SQL, Bash
Backend Development: Spring Boot, REST APIs, Spring Security, JWT, Node.js, Prisma
Frontend Development: React, Next.js, HTML, CSS
Databases: MySQL, PostgreSQL
Cloud & Deployment: AWS EC2, S3, RDS, CloudFront, IAM, VPC, Docker, Linux, Nginx, PM2
Developer Tools: Git, Jenkins, Maven, Gradle, CI/CD
Certifications: AWS Certified Developer – Associate (DVA-C03), AWS Certified Solutions Architect – Associate (SAA-C03), Google Cyber Security Professional Certificate Verify

PROFESSIONAL EXPERIENCE

Gain America INC – Information Technology & Services New York, NY
Software Engineer | Jun 2025 – Present

- Developed Java/Spring Boot REST APIs and supported integration with frontend application workflows
- Automated processing of 15,000+ digital assets using Python and Gemini APIs, reducing manual processing effort by approximately 90%
- Supported data-processing workflows and MySQL integrations, troubleshooting application issues and performing root-cause analysis
- Supported application deployment and CI/CD workflows using Git, Jenkins, Maven, and Gradle; performed Linux-based troubleshooting

Heuristics Pharma Perceptions – Pharmaceutical Manufacturer New York, NY
Technology Support Associate Intern | Jan 2025 – May 2025

- Collaborated with senior engineers on application security reviews, testing, and troubleshooting
- Documented authentication, access-control, and data-handling workflows while supporting application security activities

SOFTWARE ENGINEERING PROJECTS

Prince Urban Knot | Full-Stack E-Commerce Application (GitHub) – Full-Stack & Deployment Project | **Live Demo:** PrinceUrbanKnot
React, Spring Boot, MySQL, REST APIs, JWT, Cloudinary, Docker, Vercel, Render

- Built and deployed a full-stack e-commerce application using React, Spring Boot, and MySQL, with frontend and backend hosted on Vercel and Render
- Implemented JWT-based authentication and role-based authorization using Spring Security
- Developed product filtering and CSV bulk-import functionality supporting a catalog of 122+ products

Kainth Ties | Full-Stack E-Commerce & AWS Migration (GitHub) – Cloud Migration Project | **Live Demo:** KainthTies
Next.js, TypeScript, Node.js, Prisma 7, PostgreSQL, AWS EC2, S3, CloudFront

- Migrated a live Next.js e-commerce application with 122 products from Supabase-based infrastructure to PostgreSQL on AWS RDS
- Integrated Prisma 7 for database operations and deployed the application on Amazon Linux using Nginx and PM2
- Automated migration of approximately 900 product images from Cloudinary to S3 and updated application URLs to use CloudFront

EDUCATION

Pace University | GPA: 3.84/4.00 | May 2025
Master of Science in Cyber Security, Major: Computer and Information Systems Security/Information Assurance
